

90kw off-grid inverter in Lagos Nigeria

What is an inverter used for in Nigeria?

There are many uses for an inverter in Nigeria, but the most common is with solar panels. A solar panel charges a battery, but that battery won't power any of your AC appliances by default, so it relies on an inverter to change the DC to AC, creating useful electricity for general use.

What is an off-grid solar inverter?

An off-grid solar inverter is also called a stand-alone inverter or a solar battery inverter. It connects to a battery bank where the excess solar energy from the solar panels is stored. When there is no sunlight or during power outages, the off-grid solar inverter uses the battery bank to provide power to the house.

Which is the best inverter brand in Nigeria?

Pragmatics makes inverters that compete with home generators, making them naturally noiseless and powerful enough to power virtually any home appliance. It also focuses on the looks of its products, which puts it among the best inverter brands in Nigeria. The company has branches in Obanikoro, Onikan, Alaba, Abuja, Osogbo, and Port Harcourt.
