A solar pump inverter, also known as a solar variable frequency drive (VFD), helps in converting the direct
current of a solar panel into an alternating current drives various AC motor water pumps like a centrifugal
pump, irrigation pump, swimming pool pump, and deep well water pump. The input can be a solar DC power
supply (160-450VDC, 350-800VDC), also single-phase ...

Bangladesh Water Pump Inverter Manufacturer

According to the actual system demand and installation condition, different types of pumps such as centrifugal pump, axial flow pump, mixed flow pump and deep well pump can be applied. System Optimization: 1. Single System Optimization; A single solar irrigation system consists of only one pump, a power -matched solar array and an inverter .
