Lithium batteries Sonny. All Messages By This Member #164082 JCKinsey said; As a side note I see that many of these rechargable batteries on newer items use lithium-ion batteries which are getting a reputation for spontaneously going up in Flames. I predict more shipping restrictions on these making replacements even more expensive in the future.

Chemical procedures can then be used to extract lithium, cobalt and nickel. In 2024 the Costa Ricans processed 100 tonnes of used batteries producing black mass. This year, for the first time, they aim to operate at full ...
