How big is the uninterruptible power supply (UPS) battery market?

Enjoy complimentary customisation on priority with our Enterprise License! The uninterruptible power supply (UPS) battery market size is forecast to increase by USD 5.09 billion at a CAGR of 6.5% between 2023 and 2028. The market is experiencing significant growth due to several key drivers.

What is the demand for uninterruptible power supply (UPS) in 2024?

The rising demand for cost-effective and efficient UPS is enabling the market grow at a CAGR of 4.28% from 2024 to 2031. An uninterruptible power supply (UPS) is a device that supplies emergency power to connected loads when the primary power source fails.

What is the global UPS battery market size?

The global UPS battery market size was valued at USD 11.49 billion in 2024 and is expected to grow at a CAGR of 14% from 2025 to 2030. The rapid digitization of industries and the growing reliance on data centers, cloud computing, and IoT have significantly boosted the demand for uninterrupted power supply systems.

What is a UPS system & how does it work?

UPS systems typically include a battery, an inverter, and many control circuits that monitor power supply problems and seamlessly switch between main and battery power.

Why is the UPS market growing?

The market is experiencing significant growth due to several key drivers. Firstly, the increasing construction of data centers worldwide is fueling demand for UPS systems to ensure uninterrupted power supply and protect against power outages or voltage fluctuations.

Why do industrial operations need a UPS system?

Industrial operations require continuous power supply to maintain productivity and prevent costly downtime. UPS systems provide essential backup power during outages or grid fluctuations, ensuring that critical machinery and equipment remain operational.

According to Triton's research report, the uninterruptible power supply (UPS) market in North America is expected to advance with a compound annual growth rate of 3.21% during the forecast period 2023-2030.
