

# Fire power box wall mounted mobile power tray

What is a superstopper Maxi fire box?

The SuperSTOPPER Maxi is an intumescent type product designed to prevent the spread of fire through service penetrations. The retro fit fire box is suitable for electrical, data and communication cables, steel and copper pipes and a range of other applications

What is a fire rated wall box?

Fya Defence fire rated wall boxes are designed for mounting switches and outlets in walls that have a specified fire rating. MEASUREMENTS: 52mm (H) x 95mm (W) x 50mm (D) The Fire Rated Wall Box is designed for mounting switches and outlets in walls that have a specified Fire Rating or FRL.

What is a superstopper orange fire box?

Think of the SuperSTOPPER Orange Fire Boxes as fire rated holes, and as a fire takes hold the intumescent material expands to close off the penetration, forming a tight seal around the services and crushing off plastic pipes.

The tray was primed and painted with multiple coats of rust-oleum hi-temp spray paint. The power tray used preexisting threaded holes located on the passenger side located between the air filter box and the fire wall. Power ...
