

How can France reduce the cost of installing solar panels?

Simplify the state's administrative procedures around putting panels on homes, cut VAT on it, and facilitate interest-free loans to help bear the cost of installation, advises Gaiddon. DualSun's Mouterde says that, above all, France needs more qualified panel installers.

Is Lyon a hotbed for solar?

Lyon's hotbed for solar is La Confluence, the neighbourhood sandwiched between the confluence of the Saône and Rhône rivers in the city centre. It used to be an ugly industrial zone but in the past two decades, homes, offices and shops have replaced decayed factories, warehouses, rail yards and a prison.

How much does it cost to install solar panels in France?

He only has to use electricity from the grid when there's no solar available -- chiefly at night. Diab spent EUR17,000 having the panels installed. The sum was unusually high partly because his house is so big: the average cost of home installation in France is about EUR10,000, without a storage battery.

How many solar installations are there in Lyon Confluence?

The neighbourhood has more than 40 solar installations, says Bruno Gaiddon of Hespul, an association specialising in renewable energies, which advises Lyon Confluence. He adds, "This neighbourhood is a kind of laboratory for what will be generated in France in future."

Can solar reversible air conditioning reduce energy consumption?

The use of a solar solution would reduce very substantially energy consumption, replacing fossil fuels use (gas or oil for heating). Helioclim offers an innovative solar reversible air conditioning solution based on a water/ammonia absorption chiller integrating internal energy storage and powered by solar trough collector.

How many French homes have solar panels?

Solar panels have so far been installed in only about 600,000 French homes, or less than 2 per cent of the country's housing stock. However, the market is growing fast. The boom is helping answer two questions currently resonating well beyond France: what kind of homes are best suited to solar?

Some popular services for solar installation include: Solar Panel Installation Off-grid Solar System Services Solar Water Heater Repair Ground-mounted solar panel installation Solar ...

In France it will soon be illegal for air-conditioned stores to keep their doors open, while government offices will only be able to put on the cool air if it is hotter than 26°C indoors.
