

Greek lithium battery pack

How much money is being invested in lithium-ion batteries?

An additional EUR20mis being invested in the production of lithium-ion batteries,with the installation of three highly automated assembly lines for lithium modules and complete lithium battery systems,as well as one assembly line for prototyping and R&D purposes.

How much money does sunlight get for a lithium-ion battery project?

Image: SUNLIGHT. A EUR105 million (US\$127.6 million) push to develop low-cost,environmentally-friendly lithium-ion battery technology by Sunlight,a designer and manufacturer of batteries headquartered in Greece,will receive EUR49.9 millionin grant funding.

What's new at Sunlight's Xanthi battery plant?

Specialist battery company Sunlight,a member of Olympia Group,will significantly increase manufacturing capacity and create new jobsat its state-of-the-art plant in Xanthi,northern Greece,following a EUR25 million,10-year loan from the European Investment Bank (EIB) which was confirmed earlier in Athens today.

What will sunlight's lithium battery technology be used for?

A company spokesperson told Energy-Storage.news today that Sunlight wants the lithium battery technologies it develops to play a key role in areas including automated guided vehicles, electric buses and shipping, as well as in "smart storage systems for renewable energy sources".

How will the Xanthi upgrade affect lead-acid battery production?

The upgrade will increase annual production capacityof lead-acid motive power products from 4GWh to 5.3GWh gradually until Q3 2022 and will render the Xanthi-based manufacturing unit the largest in the world for industrial,motive,lead-acid batteries.

Who makes sunlight batteries?

Sunlightis currently the third largest manufacturer of batteries in the global motive power battery industry,with about EUR1 billion of consolidated annual sales and a workforce of approximately 3,100 people.
