

# Highland solar photovoltaic panels

Which solar panels are available in the Scottish Highlands?

Domestic solar panel installation in the Scottish Highlands. Right now, the preferred choice in the Scottish Highlands is standard residential solar panels, such as a 16 or 8 panel 4kW PV system. Our network of solar installers, partnered with us, specialises in catering to all domestic solar panel installation needs throughout Scotland.

Who can benefit from solar panels & battery storage in Highland?

Eligible Highland homeowners and private rented tenants could benefit from up to 100% funding to install solar panels and battery storage on their properties. The offer is part of the Energy Efficient Scotland: Area Based Scheme, which aims to improve the energy efficiency of properties in the Highland area.

How much does a solar panel system cost in the Highlands?

Typically, the cost of installing a solar panel system in The Highlands starts from around £6,500. Despite the initial investment, substantial savings on electricity costs over many years can be expected.

Will solar panels work in the highlands in the winter?

The short answer is yes, your solar panels will still work during the winter in The Highlands. Solar panels excel on sunny days with ample daylight, yet they still produce energy even on overcast days. This can be puzzling, as people often conflate sunlight with warmth.

Can a Scottish Government grant help with solar PV & battery storage?

Councillor Trish Robertson, Chair of the Council's Economy and Infrastructure Committee and the Climate Change Working Group, said: "This is an opportunity for Highland homeowners and private rented households to receive significant Scottish Government grant funding towards the installation cost of solar PV and battery storage."

What is a polycrystalline solar PV system?

Polycrystalline solar PV systems are considered a staple in the solar industry, often referred to as a legacy system. Initially the top pick for new installations, these panels and systems continue to be widely utilised across the globe.

E.ON is working with the Highland Council and the Scottish Government to offer eligible residents in the Highlands up to 100% funding towards the cost of installing a solar PV ...
