

How much is a Vienna outdoor power supply

How much do utilities cost in Vienna?

My utilities in Vienna in 2020 every month were EUR71.20. This amount is what the utility company (I use Wien Energie) calculates is the average cost of my monthly utilities -- just gas and electricity, as my landlady pays the water and garbage bills.

What does Wien energy do?

Wien Energy is responsible for supplying the city with its electricity and gas requirements. About 50% of the energy required is generated in the government's own power stations. The remaining 50% is procured by the Verbundgesellschaft. The power supply takes place at various voltage levels.

Which sector uses the most energy in Vienna?

Fuels and mineral oils (petrol, diesel, and other petroleum products), on the other hand, are used nearly exclusively by the largest consumption sector, transportation. The energy flow chart of the City of Vienna shows how much energy is required to supply the city, and where it is finally used.

Who controls the public utilities in Wien?

Public utilities are in general controlled by the local authorities. Wien Energy is responsible for supplying the city with its electricity and gas requirements. About 50% of the energy required is generated in the government's own power stations. The remaining 50% is procured by the Verbundgesellschaft.

How much does electricity cost in Austria?

Currently (as of January 2nd, 2021), the utility costs in Austria listed on Numbeo are accurate. They quote an average cost of EUR197.92 per month (**currently EUR244.32 in January, 2023) -- this covers the cost of electricity, heating, cooling, water and garbage for an 85m² apartment.

How much does it cost to charge an electric vehicle in Vienna?

It costs EUR4.22 to charge an electric vehicle in Vienna. If you are charging an electric vehicle once a day, it will cost you a total of EUR126.6 per month. If you decide to charge your electric vehicle every 2nd day, you would save EUR63.30. *This is based on charging an electric vehicle, and using 45 kWh.
