Prime Minister of the Democratic Republic of the Congo Sama Lukonde Kyenge on Thursday inaugurated a data center at the Ministry of Finance, a project built by the Chinese tech giant Huawei. (DRC Prime Minister's Office/Handout via Xinhua)

What happened to Huawei in Congo?

Telecom giant Huawei is now the latest Chinese company to be embroiled in controversy in the Democratic Republic of the Congo. The company is to appear again in the Gombe Commercial Court in Kinshasa to settle a bitter feud regarding a 2018 judgment against the company for \$105 million for allegedly failing to build a promised telecom network.

Is Huawei data center a 'powerful symbol' of collaboration with DRC?

Chen Mingliang, the general director of Huawei DRC, noted that the data center is a "powerful symbol" of the collaboration between Huawei and the DRC while affirming that his company will do its best to ensure the cybersecurity of this project.

Why is China building a data center in Congo?

While thanking the Chinese government and the Export-Import Bank of China, Congolese Minister of Finance Nicolas Kazadi said this data center will promote modernization, good governance, and the anti-corruption campaign in the country.

Could the Congo become an electricity exporter?

Almost all electricity generation today comes from hydropower and the Inga project has the potential to provide much more. If network constraints are addressed, Democratic Republic of the Congo could become an electricity exporter.
