

Huawei Industrial Energy Storage Customer Group

What is Huawei's intelligent distribution solution (IDS)?

Huawei is presenting its innovative Intelligent Distribution Solution (IDS) at the 26th World Energy Congress in Rotterdam. Developed in collaboration with ecosystem partners, the IDS aims to tackle the electric power industry's most pressing challenges, including high line loss, unreliable service, and the burden of managing new energy loads.

How does Huawei work with ecosystem partners?

Huawei works with ecosystem partners to provide power companies with scenario-based solutions, including power broadband operations, multi-station integration, smart zero-carbon campus, and integrated energy services.

What services does Huawei provide?

Distribution products: In principle, Huawei provides direct services only for value-added partners (VAPs) and remote technical support and spare parts services for end customers (installers and owners) of VAPs. Huawei services are available in distribution scenarios to provide original manufacturer services for end customers.

How Huawei luna2000-200kwh is a complete C&I solar storage system?

With Huawei's photovoltaic system and cloud management system, it can realize a complete C&I solar storage system solution. The LUNA2000-200KWH is a product designed with Safety & Reliable at the core, with more Energy and Simple O&M.

What will Huawei do in the future?

In the future, Huawei will continue to work with partners to bring green power into a wide range of industries, and provide customers with a high-quality portfolio of sustainable energy solutions. Huawei Digital Power held its FusionSolar 2023 Channel Partner Summit in Johannesburg, South Africa.

What is Huawei's power broadband operations solution?

Huawei's Power Broadband Operations Solution empowers PLN to launch home broadband services, providing the ultimate network experience for millions of households in Indonesia.
