

Imported photovoltaic glass brand in Barcelona

Where is Vidrala's photovoltaic plant located?

Vidrala, the leading glass container manufacturer, has started the commissioning of its Castellar Vidrio photovoltaic plant with the energization of the new installations at the factory located in Castellar del Vallès, Barcelona. In this way, Vidrala completes the construction project of its photovoltaic self-consumption plant that began in March.

Are solar energy solutions a viable option in Spain?

Here's why solar energy solutions are an appealing proposition in Spain: The Abundant Sunlight: Spain is blessed with ample sunshine, averaging over 2,500 sunlight hours each year. Utilizing solar panels under such optimal conditions maximizes energy production, thereby significantly reducing electricity bills.

How much energy does Castellar Vidrio produce a year?

The new photovoltaic plant at Castellar Vidrio has the capacity to produce approximately 8,000 MWh of energy per year. This will mean the reduction of more than 2,000 tons of CO₂ emissions into the atmosphere per year. The new plant has more than 1,900 photovoltaic modules with a power of up to 6 MWp.

Does Onyx Solar offer Photovoltaic Glass?

At Onyx Solar we provide tailor-made photovoltaic glass in terms of size, shape, transparency, and color for any building's design. We offer a wide range of building integrated photovoltaic glass solutions that include, but are not limited to:

Why should you invest in solar panels in Spain?

Testimonials from diverse locales in Spain reflect the company's capacity to deliver excellence, ensuring each solar panel--whether in Altea or La Nucia--functions as a tiny powerhouse, contributing to a global green grid.

Who is Tienda solar?

Tienda Solar, a company with significant expertise in the solar energy sector, has a management team boasting extensive experience both nationally and internationally in various aspects of solar installations.

Penedès Cava is the most famous sparkling drink in Catalonia; only the wines that are fermented with the traditional method and inside permitted areas (Denominació de Origen) can be labelled as Spanish Cava. Although there are Cava regions all over Spain, the 95% of all cava is produced in the Penedès wine region in Catalonia (40km from Barcelona), ...
