

# Large energy storage cabinet enterprise in the United Arab Emirates

What is MKC group of companies doing in the UAE?

Currently, MKC Group of Companies has concluded a list of agreements and is implementing them within the framework of a joint production and service enterprise in the UAE, an exclusive distribution agreement for the design, trade and post-service maintenance of energy storage devices based on CATL battery solutions.

Is Sirius a SuperCap energy storage device?

Infusion, responsible for selling Sirius, the brand name given to its supercap energy storage device, has managed to clock up almost 20MWH of sales in the last 8 weeks, a 500 per cent jump in sales from this time last year.

What is Sirius energy storage?

Sirius Energy Storage is a super battery if you like, using graphene based supercap technology. It is able to charge in seconds, have a prolonged life for almost 45 years without degradation and work in extreme temperatures to share just a few of its unique features.

Is Sirius energy storage a super battery?

In 2015, Kilowatt Labs was established in the United States of America, creating a storm in the power electronics market with the registration of a patent that would change the world of energy storage for the near future. Sirius Energy Storage is a super battery if you like, using graphene based supercap technology.

After installing the energy storage system, if the power grid issues a demand response, customers do not need to limit electricity or pay high electricity charges during this period. Instead, they may participate in demand response transactions through the energy storage system and obtain additional compensation.

Electrochemical energy storage devices with CATL battery solutions are successfully used in large industrial and commercial enterprises, residential areas, and are also being extended to ...
