Beat the heat this summer with Intercomp and avoid the summer rush by ordering your Gree Air Conditioner early!

At the forefront of the renewable energy sector in Malta, Solar Solutions was set up in 2005 by individuals with a passion for sustainability. Our unwavering commitment has enabled ...

Malta. A Brief Analysis of Malta's nascent solar market. The Maltese consume an estimated 2.12 billion Kilowatts-hours of electricity per year. This energy consumption rate is the second-lowest across all European Union member states. Malta does not have any domestic fuel resources thus, forcing it to rely on imported fossil fuels.

The batteries are compatible with Huawei range of hybrid inverters and Sungrow range of hybrid inverters also supplied by Virtue Solaris. Malta government incentives. Government incentives are also available for battery storage solutions.

Inverters & Optimisers Inverters play a crucial role in your solar system by converting the DC electricity generated by the panels into AC electricity, which can be used by your home or business.
