

What is the electricity supply industry in Lesotho?

The electricity supply industry in Lesotho is dominated by two state owned entities, namely the Lesotho Electricity Company (LEC), which is the monopoly transmitter, distributor and supplier of electricity, and the Lesotho Highlands Development Authority (LHDA), which is the main generator of electricity through its Muela Hydro Power Station.

Who owns electricity in Lesotho?

The electricity industry in Lesotho is dominated by two state owned entities, namely the Lesotho Electricity Company (LEC), which is the monopoly transmitter, distributor and supplier of electricity, and the Lesotho Highlands Development Authority (LHDA), which is the main generator of electricity through its Muela Hydro Power Station.

What was the purpose of the media tour at Maseru Bridge Border Post?

The Revenue Services Lesotho (RSL) hosted a media tour at the Maseru Bridge Border Post to familiarize journalists with Customs processes and procedures.

Does Lesotho have a rural electrification programme?

Accelerating the electrification programme in Lesotho is a key policy tenet of Government. LEC is supposed to be responsible for electrification within its service territory. Outside the LEC service territory, rural electrification efforts are currently managed by the Rural Electrification Unit (REU) of the Department of Energy (DoE).

Did RSL host a media tour at Maseru Bridge border post?

The Revenue Services Lesotho (RSL) hosted a media tour at the Maseru Bridge Border Post.

The Water and Sanitation Sector has developed an interim strategy designed to ensure that water is used for the benefit of all. The strategy deals with (a) urban water supply, (b) rural water supply, (c) sanitation services and (d) institutional and capacity development. For more read here Institutional Framework for Water Sector

Energy Commission created one of the first mandates for efficiency of external power supplies used to power appliances or consumer electronic devices. Since then, the US, European Union, China and other countries adopted both voluntary and mandatory external power supply standards as part of energy conservation legislation.

Power tools: Power tools such as drills, small saws, or air compressors may have higher power requirements. If we assume an average power consumption of 400W for power tools, the 500W inverter would be able to power one power tool at a time. With a 24V 100Ah battery, you can power the power tool for approximately 6 hours ($2400\text{Wh} / 400\text{W} = 6$ hours).

Fill in Value Added Tax (VAT) Return / Fill the return on the Interim E-filing Solution on RSL website and sign and submit; Pay tax due on or before due date (20th every month) at RSL banking hall in Maseru or the banks (Standard Lesotho Bank, Nedbank Lesotho, FNB, Post Bank).
