

Mobile power box construction site

What is ETEC Powerbox?

Among other things, the ETEC Powerbox offers solutions for emission-free construction sites, as a buffer for power grids, clean power for events or can serve as a mobile charging station. A construction power connection to supply machines or chains with electricity is not always available.

Can ETEC Powerbox be connected to a generator?

It can also be connected to a generator to create a hybrid solution. Among other things, the ETEC Powerbox offers solutions for emission-free construction sites, as a buffer for power grids, clean power for events or can serve as a mobile charging station.

How long can an ETEC Powerbox work without a power connection?

With the ETEC Powerbox, for example, the ETEC E36c (3.5 ton electric excavator) can work for up to a whole week without a power connection! Coupling the ETEC Powerbox to a generator can also create a hybrid solution. The ETEC Powerbox offers emission-free construction site solutions, grid buffer, clean power for events, and mobile charging station.

What is PowerCase & how does it work?

The use of PowerCase aligns perfectly with the construction industry, artisans, and building professionals. Its compact format facilitates transportation, providing a built-in energy capacity of 2 kWh while weighing less than 20 kg.
