We design, construct, install and repair ground mounted solar panels all across Ontario. Perfect for residential, commercial and industrial locations. learn more. Lithium

The inverter's output is split phase AC. The input power comes from the battery, regardless of whether the PV panels are charging the battery. On a sunny day, the PV panels are charging the battery in addition to supplying power to the house through the inverter. In a very small installation, the inverter could conceivably only supply 120VAC.
