How many solar panels do I need in Ottawa?

The number of solar panels required depends on factors such as energy consumption, panel wattage, and available roof space. An average household in Ottawa will need about 20-25 solar panels, which can generate more than 6 kilowatts of power. It's important to consider reliable backup power options in case of inclement weather or power outages.

Why should you install a solar panel in Ottawa?

With our Ottawa solar panel installation, you'll enjoy benefits such as increased property value and lower energy bills. Even better is how easy financial incentives such as the Greener Homes Loan--which offers \$40,000 with 0% interest over 10 years--make getting started. It's time to find real energy independence with mySolar!

Is Ottawa a good place to get solar power?

Ottawa enjoys an average of 4.6 hours of sunlight daily, making it an ideal location for solar power generation and the potential for substantial reductions in electricity bills. 2. Earn While You Power the Grid Ontario rewards homeowners for adopting green improvements.

Who are the best solar installers in Ottawa?
