

Outdoor Park Solar Lights

What are solar powered park lights?

Solar powered lights are a natural fit for public park lighting, outdoor playground lighting, resorts, and any place where the environment needs to be preserved. Greenshine modern solar LED park lights provide simple yet charming designs for areas where the aesthetic of the lights has to be taken into account.

Should you install solar lighting in your park?

Proper lighting should always be installed in parks; however, there isn't always electricity available. That's where solar lighting systems come into play. Solar lighting systems can provide so much for parks. They can light signs, information kiosks, trails, pavilions, parking lots and so much more.

Can solar lighting be used in a park or playground?

Solar lighting can be used to enhance various projects within the scope of a park or playground. These include: One of the most important functions of lighting in a park or playground is to enhance safety and visibility.

What type of LED lights do you use for solar park lighting?

Our solar park light fixtures use CREE LEDs to provide a wide range of lighting intensity and distribution pattern to fit a myriad of pathway sizes and shapes. We provide various fixture styles for your solar powered park lighting. An architecturally pleasing LED light fixture with a round form and dome-shaped top.

Are solar-powered park lights a good idea?

Solar-powered park lights will not only light up your outdoor area at night, but will illuminate your standards for energy and your community's or organization's commitment to the future. Achieve bright nights and a brighter future with SELS Solar's public park lighting systems.

Are solar lighting systems a sustainable solution for parks & playgrounds?

Solar lighting systems are an eco-friendly, cost-effective, and sustainable lighting solution for parks and playgrounds. By carefully designing and installing a solar lighting system, you can enhance visitors' safety, security, and overall experience.

Car park lighting is often mission critical lighting which is designed for the pedestrian rather than the vehicles (as vehicles have their own light source). ...
