

# Procurement of energy storage equipment for the Johannesburg power grid in South Africa

Who is bidding for battery energy storage in South Africa?

South Africa's Independent Power Producers (IPP) Office has said 33 bids have been received as part of the third window of the country's battery energy storage auctions. The bids have come from 28 companies, with two bidding for multiple sites. The bidders include France's TotalEnergies, which has made several submissions.

Who is a preferred bidder for the Mogobe (Ferrum) battery energy storage project?

Oslo, 30 November 2023: Scatec ASA has been awarded preferred bidder status for the Mogobe (Ferrum) battery energy storage project totalling 103 MW/412 MWh under the first bid window of the Battery Energy Storage Independent Power Producer Procurement Programme (BESIPPPP) in South Africa, by the Department of Mineral Resources and Energy.

Will South Africa's first public battery storage tender win preferred bidder status?

South Africa's first public battery storage tender has awarded preferred bidder status for three battery projects totalling 1,028 MWh/257 MW.

Who signed South Africa's first grid-scale battery project?

A signing ceremony for South Africa's first standalone grid-scale, private-sector battery projects, procured under government's BESIPPPP, was held in Cape Town on October 16 and attended by Electricity and Energy Minister Dr Kgosientsho Ramokgopa.

What is the battery energy storage (BES) IPP procurement programme?

The Battery Energy Storage (BES) IPP Procurement Programme has been designed to facilitate the procurement of up to 513 megawatts (MW), to provide Capacity, Energy and Ancillary Services in addition to contributing towards socio-economic and environmentally sustainable growth, to continue the successes of the IPP Procurement Programme.

What is the second bid window for a battery energy storage system?

The second bid window for the program is currently procuring 615 MW/2,460 MWh in battery energy storage systems projects, with bids due by June 6, 2024. The tender calls for the procurement of 616 MW/2,464 MWh of battery energy storage systems in South Africa.

Energy Storage System. All-in-One ESS; Portable Power Station; Lithium Battery. ... Off Grid Power Inverter. MPPT Solar Charge Controller. All-in-One ESS. ... Sandton, Johannesburg, South Africa. Phone +27 (0) 818188019 ...

# Procurement of energy storage equipment for the Johannesburg power grid in South Africa

South Africa's Department of Mineral Resources and Energy (DMRE) issued a Request for Proposals (RFP) for the third Bid Window under the Battery Energy Storage IPP ...

Johannesburg, South Africa, 10 May 2021: ACWA Power, a leading Saudi developer, investor and operator of power generation and water desalination plants in 13 countries and the lead shareholder in the Redstone concentrated solar power (CSP) plant, announced the commencement of construction on the 100 MW Redstone project following ...

Grid Charging: "Grid charging" refers to the charging of the energy storage system from energy on the power grid (as opposed to a paired energy generation resource, such as wind or solar). Prior to the passage of the Inflation Reduction Act (IRA), energy storage could be eligible for investment tax credits (ITCs) if it was paired with ...

South Africa's Independent Power Producers (IPP) Office has said 33 bids have been received as part of the third window of the country's battery energy storage auctions. The ...

This round of procurement targets 616 MW of battery energy storage capacity across five designated sites in the Free State: Harvard, Leander, Theseus, Everest and Merapi. The list of bidders includes a variety of ...

SOUTH AFRICA'S INDEPENDENT POWER PRODUCER PROCUREMENT OFFICE ... Chief Engineer, Transmission Grid Planning (Eskom) - Benefits of Energy ... (Timetable for the Energy Storage Procurement Programme) of this Part A (General Requirements, Rules and Provisions) of the RFP, to negotiate and finalise their other contractual ...

media statement: minister kgosientsho ramokgopa welcomes cabinet's approval of the south african renewable energy master plan 28 March 2025 READ MORE REMARKS BY DEPUTY DIRECTOR GENERAL: NUCLEAR REGULATION AND MANAGEMENT MR ZIZAMELE MBAMBO DEPARTMENT OF ELECTRICITY AND ENERGY RSA AT THE 60TH SAFARI-1 ...

This report provides an overview of the procurement activities of the IPPPP, including achievements as at the end of reporting Quarter 4 of the 2022/2023 Financial Year (1 January to 31 March 2023). Completed Procurement Procurement in Progress Planned Procurement Renewable Energy Independent Power Producer Procurement Programme ...

The request for proposals in large-scale battery storage systems is part of our Battery Energy Storage Capacity Bid Window under the country's Independent Power Producers Procurement Programme. In 2023, the department requested proposals for over 500 MW of battery storage for five substations in the Northern Cape.

Battery Energy Storage System (BESS) is one of Distribution's strategic programmes/technology. It is aimed

# Procurement of energy storage equipment for the Johannesburg power grid in South Africa

at diversifying the generation energy mix, by pursuing a low-carbon future to reduce the impact on the environment. BESS is a giant step in the right direction to support the Just Energy Transition (JET) programme for boosting green energy as a renewable alternative source.

South Africa's Independent Power Producers Office has announced the submission of 33 bids by 28 companies for Bid Window 3 of the Battery Energy Storage Independent Power Producers Procurement Program.. This ...

Despite this, the ever-increasing cost of energy in South Africa now makes it economically viable to go off grid and get the capital costs back with a return inside the life of the equipment. According to GreenCape, the cost of a solar system can be repaid within just five years. So, what's a realistic off-grid solar system price in South Africa?

Grid capacity availability is critical to securing electricity supply in the future. It impacts not only on the public procurement programmes, but also on private embedded generation initiatives. ...

The Battery Energy Storage (BES) IPP Procurement Programme has been designed to facilitate the procurement of up to 513 megawatts (MW), to provide Capacity, Energy and Ancillary Services in addition to contributing towards socio-economic and environmentally sustainable growth, to continue the successes of the IPP Procurement Programme.

GIBB was appointed to design and monitor the construction of a 1 344 MW pumped storage scheme in the Drakensburg of South Africa. The design and construction included an upper reservoir (50 m high CFRD dam) and lower reservoir (40 m high RCC dam), an underground power house complex, with access tunnels and associated waterways which link the ...

South Africa's public utility, Eskom, has switched on a 20 MW/100 MWh Hex battery energy storage system (BESS) in Worcester, Western Cape province, to mitigate the challenge of load shedding.

South Africans are facing another round of power cuts despite promises from South Africa's power utility, Eskom, that it would keep the lights on. Unexpected breakdowns and scheduled maintenance ...

6 282 GWh energy supplied to grid between March 2019 to March 2020. 1980 MW IRP 2019 Objectives Q1 2021/2022 Designed to meet the forecast energy demand:

- o Ensuring there is security of supply for South Africa
- o Minimising the cost of energy supply in South Africa
- o Reduce water usage related to the supply of energy (Water-food-energy nexus)

Provides federal agencies with a standard set of tasks, questions, and reference points to assist in the early stages of battery energy storage systems (BESS) project development. Battery Energy Storage System

Procurement Checklist | Department of Energy

Oslo, 30 November 2023: Scatec ASA has been awarded preferred bidder status for the Mogobe (Ferrum) battery energy storage project totalling 103 MW/ 412 MWh under the first bid window of the Battery Energy Storage Independent ...

The site-specific BESIPPPP - BW1 is designed to facilitate the procurement of up to 513 MW, or at least 2052 MWh, of battery storage across five specified substation sites, ...

South Africa's Department of Mineral Resources and Energy (DMRE) has launched the third bid window of the country's Battery Energy Storage Independent Power Producer Procurement Program (BESIPPPP). ...

The Battery Energy Storage (BES) IPP Procurement Programme has been designed to facilitate the procurement of up to 513 megawatts (MW), to provide Capacity, ...

South Africa is a Southern African country with over 59 million people, and an average growth rate of 1.43% [6], [7]. This increasing population constantly puts pressure on the power system architecture as the energy demands also increase [6], [8]. Traditionally, the power system in South Africa is dominated by coal-fired thermal generators, however due to the ...
