How do I buy an inverter?

Shopping for inverters has never been easier. Our user-friendly website allows you to browse our extensive catalog, read detailed product descriptions, and make informed decisions from the comfort of your home. With secure online payment options and fast shipping, getting the perfect inverter is just a click away.

What type of Inverter should I buy?

This equipment is ideal for installation in residential areas, is highly efficient, reliable and durable. Inverters with single-phase and three-phase alternation current output of 220 and 380 V are readily available in our online store. Three-phase models can be used in homes or industrial sites.

What is a solar inverter?

Inverters convert direct current (DC) electricity produced by solar panels into a sinusoidal alternating current (AC) of 220V, which is suitable for most electrical appliances. The assortment of inverters for solar systems on the market today is huge.

What size solar inverter should I buy?

The size of a solar inverter is usually measured in Watts. When purchasing a grid tie power inverter, you have to make sure it suits the size of your solar panel system. For example, if your solar panel array has a combined power of 5kW then a 5,000 W inverter should be just right for it.

Sunhub Verified For Bright Consumers. Our mission, however, is much bigger. We aim to create an ecosystem for all things solar, so solar professionals (installers, wholesalers, distributors and suppliers) can grow their solar businesses online, help people, businesses & communities become energy independent, and protect the environment while doing so.

Inverters are considered the most economical and energy-saving power solution; Inverters are relatively affordable to buy and do not cost anything to run. Inverters are quiet and do not emit any fumes, this makes them one of the most environmentally-friendly solutions available; They can handle surges in power when the
