

Super long-lasting household solar lights

What are the best solar lights?

We chose the AloftSun Solar Motion Sensor Outdoor Lights as the overall best solar lights for their durability, water resistance, and motion-sensing capabilities. If you're looking for a set of string lights, we loved the Brightech Ambience Pro Solar Powered Outdoor String Lights, because they held up to water and freezing temperatures.

Which solar lights are best for your outdoor space?

Luckily, we tried and tested a wide range of solar lights to find the best one for every outdoor space and how well they cope with different weather conditions for longevity. If you're after string lights, Brightech's Ambience Pro LED Outdoor String Lights is our favorite pick.

What are the best solar powered outdoor string lights?

If you're looking for a set of string lights, we loved the Brightech Ambience Pro Solar Powered Outdoor String Lights, because they held up to water and freezing temperatures. At our testing lab in Des Moines, Iowa, we put 27 outdoor solar lights to the test.

How long do outdoor solar lights typically last?

Most outdoor solar lights last around eight hours on a single charge. This lifespan can vary based on factors like the amount of direct sunlight received and the time of year. For instance, Aityvert's solar torch lights can last up to 12 hours during summer but only five hours during winter.

What is the most budget-friendly solar light?

For a budget-friendly pick, we recommend the HMCity Outdoor Mounting Solar Lights, which includes motion sensors, too. We tested 19 outdoor mounted solar lights and assessed each model based on ease of installation, features, design, brightness, durability, and value over two weeks.

Which solar lights are the best for home security?

For affordable home security, opt for the Ameritop Outdoor Mounting Solar Lights. They have a smart motion sensor that can detect movement up to 26 feet away and will stay illuminated until there's no active motion within the sensor's field, turning off after 15 seconds of stillness.

Fairy lights: Think of the lights on a Christmas tree - they have small, dim LEDs, narrowly spaced along a wire, and are ideal for decorative lighting. String lights: The bigger, brighter cousin of fairy lights. Also on wire, but the bulbs of string lights are spaced out more widely than fairy lights, and are much brighter, for festival-style illumination.
