

# The latest price of photovoltaic glass in this round

What are PV solar cell glass price developments?

This post is a summary of the PV solar cell glass price developments. The price developments of PV solar cell glass are expressed in US\$ prices converted FX rates applicable at the time when the price was valid. PV solar cell glass price index developments are calculated from multiple separate sources of data to ensure statistical accuracy.

What happened to solar glass prices in CW2?

All module products maintained their prices in CW2. Solar glass varieties maintained their prices WoW in CW2, after seeing a sharp drop in the last week of CY2024. The 2 weeks of CY2025 have been largely positive for the TaiyangNews PV Price Index, with 8 of the listed products seeing price upticks so far.

How did the taiyangnews PV price index perform in 2025?

The TaiyangNews PV Price Index recorded an upward movement in prices for some upstream products in Calendar Week 2 of 2025. n-type silicon was up 3.7% from CW1, just 3 weeks after registering an increase in CW51/2024. Having remained unchanged since CW36/2024, granular silicon prices were also up 5.4% WoW.

How has cy2025 impacted the PV price index?

The 2 weeks of CY2025 have been largely positive for the TaiyangNews PV Price Index, with 8 of the listed products seeing price upticks so far. While n-type wafer and cell prices have increased, 3 PERC module types have experienced declines. The data refers to average product prices in China.

What happened to granular silicon prices in cw36/2024?

Having remained unchanged since CW36/2024, granular silicon prices were also up 5.4% WoW. The 3 n-type wafers were up mid- to high-single-digits, with the 182 mm variant seeing a 9.3% increase WoW. Prices for the n-type 182 mm cell were up 1.8% WoW in CW2, bringing all n-type cell prices at par at RMB 0.29/W.

IRENA presents solar photovoltaic module prices for a number of different technologies. Here we use the average yearly price for technologies "Thin film a-Si/u-Si or Global Price Index (from Q4 2013)".

Negotiations for a new round will start this week, with photovoltaic glass prices expected to decline : published: 2024-06-04 18:04 : Weekly Outlook for Photovoltaic Glass. On the supply side, as of June 3rd, the operating capacity of domestic photovoltaic glass is 121,480 tons/day. ... the price of photovoltaic glass in the new month is under ...

The latest news on September 2nd, the price of PV glass 3.2mm coating is about 24-27 yuan per square meter, up 3 yuan/m<sup>2</sup> from last week; the price of photovoltaic glass ...

# The latest price of photovoltaic glass in this round

The global solar photovoltaic glass market size is projected to hit around USD 196.89 billion by 2034 from USD 13.03 billion in 2024 with a CAGR of 31.20%. ... Because they reduce the cost of cement or adhesive purchases ...

As of July 14, the domestic price for 2.0mm PV coated glass (panel) stands at RMB 17/m<sup>2</sup>, while 3.2mm PV coated glass is priced at RMB 25/m<sup>2</sup>, with both prices remaining unchanged compared to the previous week. This month, the price of photovoltaic glass is lower, primarily due to certain enterprises reducing prices to facilitate shipments.

Having seen no changes in solar glass prices since CW39, the thicker 3.2 mm variant saw a 2.3% decline from CW49. While the TaiyangNews PV Price Index has seen ...

**PV Price Trends.** Through detailed survey cross-survey of data from major suppliers and procurement parties, Green Energy Research is able to provide an accurate weekly report on spot prices of key PV components.

Noting that the region has seemed to be a bellwether for global pricing trends, we investigate the factors leading to this latest round of cost reductions from a holistic perspective, considering component pricing trends, ...

Taiwanese market research company PV InfoLink has reported that prices of solar glass in China grew this week for the third week in a row. Solar glass with a thickness of 2 mm is being sold at ...

With demand increasing month-on-month and prices nearing the bottom, there is still room for polysilicon prices to decrease in Q3, albeit at a significantly slower decline rate. ...

**Factors Influencing the Price of Photovoltaic Glass.** The price of PV glass is influenced by a myriad of factors, ranging from raw material costs to technological advancements. Below are some of the key factors that play a role in determining the price of PV glass: Raw Material Costs: The primary raw material for PV glass is silica sand, along ...

Solar glass prices continued to climb this week, with 2.0 mm sheets rising 8% to CNY 13.5 (\$1.85) per square meter and 3.2 mm sheets up 9.8% to CNY 22.5, according to the China Nonferrous...

The mainstream price of photovoltaic glass 3.2mm coating market is 28.5RMB/m<sup>2</sup>, and the mainstream price of photovoltaic glass 2.0mm coating market is 21.2RMB/m<sup>2</sup>. According to industry analysis, although the market has shown a situation where supply exceeds demand, and prices have been lowered, the price of soda ash, the main raw material of ...

Over November and December 2020, quotes for PV glass rose to reach the price of \$6.64/m<sup>2</sup> according to market research company PV InfoLink, with some small-scale suppliers even quoting prices of \$7.72/m<sup>2</sup>.

# The latest price of photovoltaic glass in this round

Over the past ten years, the number of PV patent filings, among which are solar glass, have risen by roughly 200% across Europe.

Solar glass varieties maintained their prices WoW in CW2, after seeing a sharp drop in the last week of CY2024. The 2 weeks of CY2025 have been largely positive for the TaiyangNews PV Price Index, with 8 of the listed ...

The price of photovoltaic glass is running at a low level, and the inventory inflection point is approaching. According to Zhuochuang information, this week's 3.2mm coated ...

PV Glass Prices are Expected to Increase in the Second Half of This Year and Witness an Upward Inflection Point in Both Short and Long Cycles published: 2023-07-25 17:40 Edit Research indicates that module production capacity reached 40.3GW in June, showing a year-on-year growth of 52.9% but a decline month-on-month due to early-stage inventory ...

Xinyi Solar is the world's leading photovoltaic glass manufacturer and listed on the main board of the Hong Kong Stock Exchange on 12 December 2013 (stock code: 00968.HK) Following the successful spin-off from Xinyi Solar, on 31 December 2024, Xinyi Energy ...

InfoLink Consulting provides weekly updates on PV spot prices, covering module price, cell price, wafer price, and polysilicon price. ... Module prices in dollar terms are price quotes in non-China markets (before tax), not translated from RMB prices. Stop reporting for monofacial glass-backsheet PERC modules from April 2024 onwards.

The photovoltaic glass sector in China demonstrated particular strength, with manufacturers successfully pushing through price hikes amid tight supply conditions. ... Procurement Resource provides latest prices of Glass and it's Products. Each price database is tied to a user-friendly graphing tool dating back to 2014, which provides a range of ...

Energytrend is a professional platform of green energy, offering latest price of solar PV industry. ... 2.0 Rear PV Glass (RMB) 12.5 : 12 : 12.5 ( 0.0 % ) Weakened Demand Pressures Polysilicon Prices; Temporary Supply-Demand Imbalance for 210RN Wafers and Cells. Polysilicon.

Large capacity addition in solar modules by 15-20 players is likely to drive domestic solar glass demand, say CRISIL analysts in an interview with pv magazine . New players have expressed interest ...

Updated on : February 13, 2025 Solar Photovoltaic Glass Market. The global solar photovoltaic glass market was valued at USD 7.8 billion in 2023 and is projected to reach USD 27.3 billion by 2028, growing at 28.4% cagr from 2023 to 2028.

## The latest price of photovoltaic glass in this round

As described in the beginning of this report, researchers at MSU have already achieved a breakthrough to produce fully transparent photovoltaic glass panels that resemble regular glass. Researchers estimate the efficiency of these fully transparent solar panels to be as high as 10% once their commercial production commences.

According to the forecast by the China Photovoltaic Industry Association, the global PV installed capacity is projected to reach 350GW in 2023. If the monthly demand exceeds 45 to 50GW, there is a likelihood that PV glass supply will fall short in the short term, leading to a slight increase in prices.

Very recent price developments of immediate cost drivers of PV solar cell glass prices; Recent price developments of underlying feedstocks which drive the price of PV solar cell glass; ...

DBM provides you with the latest prices for Chinese photovoltaic industry chain products, including: PV Modules, Solar Cell, PV Glass, Polysilicon, Silicon Wafer, Industrial Silico. ...

Different from BIPV solar glass, the Solar glass used in solar station, are usually 2.0 or 3.2mm low iron patterned tempered glass which uneven surface which can decrease the light reflectance and increase the solar panel production efficiency.. Solar glass price trend -2019-2021. In the past two years, the price of photovoltaic solar glass has fluctuated sharply.

Crystalline silicon solar cells are today's main photovoltaic technology, enabling the production of electricity with minimal carbon emissions and at an unprecedented low cost. This Review ...
