

Uninterruptible Power Supply Wholesaler in Auckland New Zealand

What is an uninterruptible power supply (UPS) system?

Uninterruptible power supply (UPS) systems provide clean and reliable power to mission critical processes including hospitals, banks, data centres, computer systems, etc.

What are the different types of UPS systems available in NZ?

There are several types of UPS system solutions available in NZ: An online UPS system supplies power by converting incoming AC power to DC and then reconverts it to a stable AC output through an inverter, all while continuously charging the batteries.

Why do I need an uninterruptible power supply?

Uninterruptible power supply equipment ensures that your hardware is always powered on even during black-outs. It's important to connect your server and networking equipment to a UPS, because it lets your users save documents if the office loses power. 4Cabling is a leading provider for Australian-approved power products and UPS backup products.

Where can I buy an ups in NZ?
