

# Vientiane Heavy Energy Storage Project

Where will Vientiane's 240 MWp solar project be built?

With an installed capacity of 240 megawatt peak (MWp), the solar project will be built on the reservoir of Nam Theun 2, local daily Vientiane Times reported on Wednesday.

What is EDF doing in Laos?

Last year, French power giant EDF secured a contract to lead the development of a 240MW floating PV project co-located on the reservoir of the 1.08GW Nam Theun 2 hydropower project in Khammouane province, Laos.

Is Nam Theun 2 the world's largest floating solar project?

The Lao government and shareholders in Nam Theun 2 hydropower plant have agreed to develop Nam Theun 2-Solar, which is claimed to be the world's largest hybrid floating solar project.

The project, situated in Thakhek District and Sebangphay District of Khammouane Province, is a crucial project under the Belt and Road cooperation. It is the first large-scale solar project in Laos developed by a Chinese company. The initial phase of the project has a capacity of 50.1 MW, along with a 10 MWh energy storage system.

Laos, Thai company form joint venture in field of clean energy The Government of Laos and Energy Absolute Public Company Limited from Thailand (EA) have collaboratively formed a joint venture company named Super Holding ...

The Crimson Energy Storage Project created 140 union jobs during peak construction. The storage project is part of the larger Crimson Solar Project to be constructed at a future date. ... LLC, to construct a 350-megawatt solar photovoltaic facility and 350-megawatt battery storage system with support facilities to generate and deliver ...

The agreement marks a significant step in expanding Laos' clean energy infrastructure, with a focus on integrating wind, solar, and water storage energy solutions across three northern provinces: Oudomxay, Phongsaly, and Luang Namtha. Phase II builds on the initial phase of the project, which saw the deployment of solar energy capacity.

Vientiane power energy storage 2023 energy storage installation outlook: China, US, and Europe. As of the first half of 2023, the world added 27.3 GWh of installed energy storage capacity on ...

# Vientiane Heavy Energy Storage Project

Energy storage solutions for electricity generation include pumped-hydro storage, batteries, flywheels, compressed-air energy storage, hydrogen storage and thermal energy storage ...

French energy giant EDF is planning the construction of a 240 MW floating solar power plant at the Nam Theun 2 Hydropower plant on the Nam Theun River, in Laos.. The ambitious scheme, which would ...

The Vientiane Times reported the water released did not come from the main reservoir behind the dam but from a "sub-reservoir of the dam which is under construction." This sub-reservoir suffered damage due to heavy rain, according to Thathom district Governor Somboun Sonelitthideth.
