

Wellington energy storage equipment manufacturing company

Who owns the Wellington Battery energy storage system?

It now fully owns the battery storage facility. AMPYR Australia is now the full owner of the Wellington Battery Energy Storage System (BESS) after acquiring Shell Energy Australia's 50% stake in the project's stage 1. In a statement, AMPYR said it had been joint venture partners with Shell in the New South Wales project since October 2022.

What is the Wellington Battery energy storage system (BESS)?

The Wellington Battery Energy Storage System (BESS) is planned to be developed in the central west New South Wales (NSW), Australia. The project will comprise a grid-scale BESS with a total discharge capacity of around 400MW. AMPYR Australia, a renewable energy assets developer in the country, owns 100% of the BESS project.

Who owns Shell Energy's 50% stake in Wellington Bess?

The Ampyr Australialocal arm of Singapore-based Ampyr Energy says it has acquired oil major Shell Energy's 50% stake in the 300 MW/600 MWh first stage of the Wellington BESS being developed near Dubbo, NSW.

What is the target capacity of the Wellington Bess?

The target capacity of the Wellington BESS is 500 MW /1,000 MWh, making it one of the largest battery storage projects in NSW. The Wellington BESS will connect to the adjacent TransGrid Wellington substation, adjacent to the Central West Orana Renewable Energy Zone (Central West Orana REZ).

Who owns the Wellington Bess?

Ampyr Australia, the regional entity of which its parent company is backed by infrastructure investor Stonepeak, now has secured full ownership of the Wellington BESS, including stage one, a 300MW/600MWh BESS, and stage two, where an additional 100MW/400MWh 4-hour duration BESS will be added.

When will ampyr & shell energy build the Wellington Bess project?

The Wellington BESS project is being jointly developed by AMPYR and Shell Energy. Subject to securing all relevant approvals, authorisations and financing, construction is expected to commence in mid-2023. Once operational, Shell Energy will hold the rights to charge and dispatch energy from the Wellington BESS.
